1 Enhancements

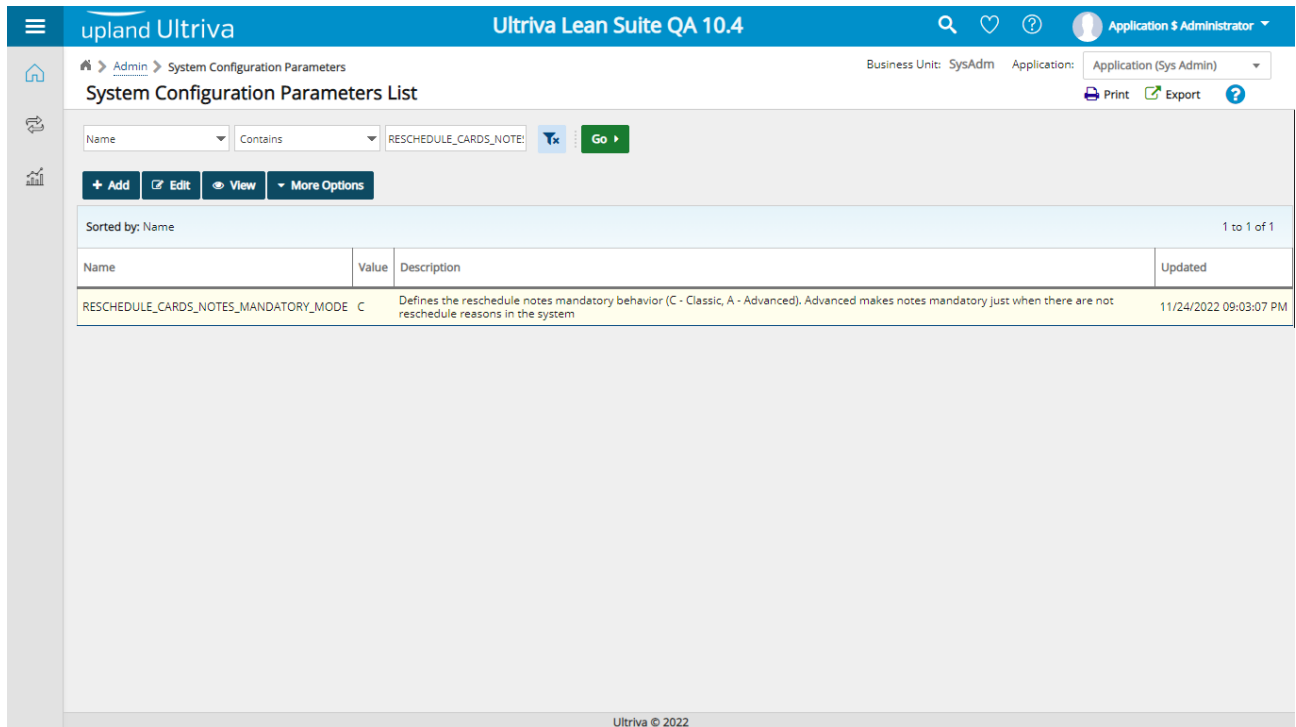

1.1 Reschedule actions is not checking mandatory notes when there are reschedule reasons in the system

Before this improvement, when the user was trying to create a Reschedule having Reschedule Reason not required, and Reschedule Notes required. System was just validating Reschedule Notes when there are not Reschedule Reason entities stored into the system,

A new System Configuration Parameter was created RESCHEDULE_CARDS_NOTES_MANDATORY_MODE allowing two possible values C (Classic – Default) and A (Advance).

When Classic mode is set, it will validate Reschedule Notes in all scenarios, when there are Reschedule Reason entities or not.

Advance mode will be used to validate Reschedule Notes just when there are not Reschedule Reasons entities into the system.

Ultriva 10.3.2 Release Notes

1.2 New integration to compare In Process quantities

Created a new integration named ERPCompareInProgressQty to allow users to compare system in process qty with ERP in process qty.

The screenshot displays the 'Service Task List for TCEK-Ram' in the Ultriva Lean Suite QA 10.4 interface. The search criteria are set to 'Plant: TCEK-Ram' and 'Task Name: Contains compare'. The table below shows the configuration for the 'ERPCompareInProgressQty' task.

Task Name	Direction	File Name	FTP	Group Name	Sequence	Alerts Recipient	Task Status	Last Run Time
ERPCompareInProgressQty	DataIn	ERPCompareInProgressQty_*	newftp.ultrivams.com	\$1Min	7		DONE	12/13/2022

New Service Task is available to be configured, this is an example of a file to be send for this DataIn task.

```
1 BuyerCode|VendorCode|ItemNo|InProgressQty|ERP1astupdate
2 TCEK-Ram|supnewcode|DVT_SHIPT_1|6500|20221010125624
3 TCEK-Ram|supnewcode|DVT_SHIPT_2|7200|20221012094524
4 TCEK-Ram|supnewcode|DVT_SHIPT_03052019|120|20221014083024
5 TCEK-Ram|supnewcode|DVT_SHIP_RULE|3550|20221016111624
```

Ultriva 10.3.2 Release Notes

New Batch Job report is available to get the results of the execution.

2 Bug Fixing

2.1 Page position when loading screen

For certain screens, when the page was loading first time it was auto scrolling page to display the first selected record on the grid.

This behavior was fixed.
